IRIDIA – cropped down jacket

The new cropped silhouette of the season: boxy volume, matte nylon, funnel neck, no hood. Aimed at a younger client who already owns a Aurea or a Aria and wants something more fashion. **Core colour is black**, off-white as second option for EU/US resort clients. Powder pink (510) is a **limited regional colour** with a small buy, mainly for Asia windows and social content; we expect it to be a secondary option and do not recommend building client outreach around it. *Nota prodotto: piumino cropped boxy, nylon opaco, collo a imbuto, imbottitura 90/10.*

• Matte nylon: no laqué shine, easier to style with tailoring

• Funnel neck replaces the hood, pairs with the Vlogo Beanie

• Cropped length works with high-waist trousers and long knits

• Analog for planning: Aria (short down jacket)

AMALIA – long belted down coat

The coat for clients who do not want to look like they wear a down jacket. Long, belted, tailored shoulder. Black is the volume colour and carries most of the allocation. Chocolate brown is on trend this season but the buy is limited, so present it as a statement piece and steer to black when sizes are missing. *Nota prodotto: cappotto lungo in piumino con cintura, colletto a revers, tasche a filetto.*

• Belt can be removed: two looks in one coat

• Brown pairs with the Cashmere Turtleneck in chocolate (same dye lot)

• Long length: check sleeve length on petite clients, alterations not possible on down

ARTEM – long parka, men

Technical long parka with faux fur trim on the hood and two-way zip. Fit is **regular**: offer the client his usual Valentino size. Good substitute for clients asking for longer Monteluce or for the Atelier look in the city. *Nota prodotto: parka lungo, cappuccio con bordo in pelliccia sintetica staccabile, zip a doppio cursore.*

• Detachable faux fur trim (no animal fur, important for some markets)

• Two-way zip: comfortable when sitting / driving

• Inner storm cuffs, water-repellent shell

Valentino Couture ASTRA **– capsule (launch 24/09)**

Polar-inspired capsule: an oversized down cape, an oversized jacket and a knit balaclava. Limited quantities, selected doors only (see list). Sizing is **true to size**: the volume is part of the design, do not suggest sizing down. Launch moment on social on 24/09 at 10:00 CET; no early sales, no holds before launch day. *Nota prodotto: mantella in piumino oversize, giacca oversize, passamontagna in maglia a coste.*

• Strong storytelling: make sure the team has watched the capsule video before 24/09

• Price positioning: statement / collector piece, do not justify the price, explain the design

• Balaclava is the entry point for younger clients and gifting

Check the stock lookup for other doors in your country, then propose black. No re-order planned on brown in season.

Will there be a second ASTRA **drop?**
Not planned. The capsule is a one-shot.
