HALDEN & ROWE

Into the Cold.

FW26 Campaign Performance Report

United States & United Kingdom | Flight Sep 15 - Oct 21, 2026

FINAL | October 19, 2026

A season-defining launch.

Weeks 1-4 of flight delivered record reach and a measurable lift in store sales across exposed markets.

+22%	412M	+16%	4.8%	5.6x
Attributed sales uplift	**Impressions**	**Footfall uplift**	**Engagement rate**	**ROAS**
exposed vs. unexposed stores	OOH + digital + social	door counters, exposed stores	Instagram + TikTok, organic + paid	attributed revenue / media spend

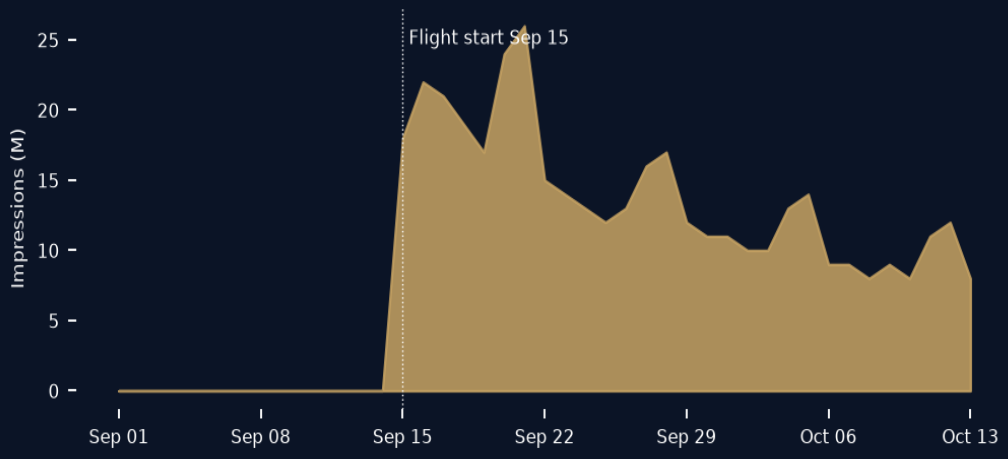

— The 'Into the Cold' platform reached 38.6M unique users across the US and UK, 21% above plan.

— Hero film completion rate 71% (benchmark 54%); Madison Avenue and New Bond Street takeovers drove earned coverage.

— Store traffic and sales in exposed markets clearly outperformed unexposed markets during the flight.

— We recommend extending the flight into the holiday window and adding Toronto and Miami to the media plan.

Media delivery

Channel	Impr. (M)	Spend ($k)	CPM ($)
OOH (NYC, LA, MIA, LON)	164.0	1,920	11.7
Paid social (IG, TikTok)	151.3	1,310	8.7
Programmatic video	58.2	905	15.5
CTV	21.9	540	24.7
Search & Shopping	16.6	325	19.6
Total	**412.0**	**5,000**	**12.1**

Source: ad servers (CM360), Meta/TikTok Ads Manager, OOH vendor proof-of-posting. Impressions not de-duplicated across channels.

Social & earned

38.6M
unique reach

4.8%
engagement rate*

71%
video completion

2,140
earned articles

+34%
site sessions from US/UK

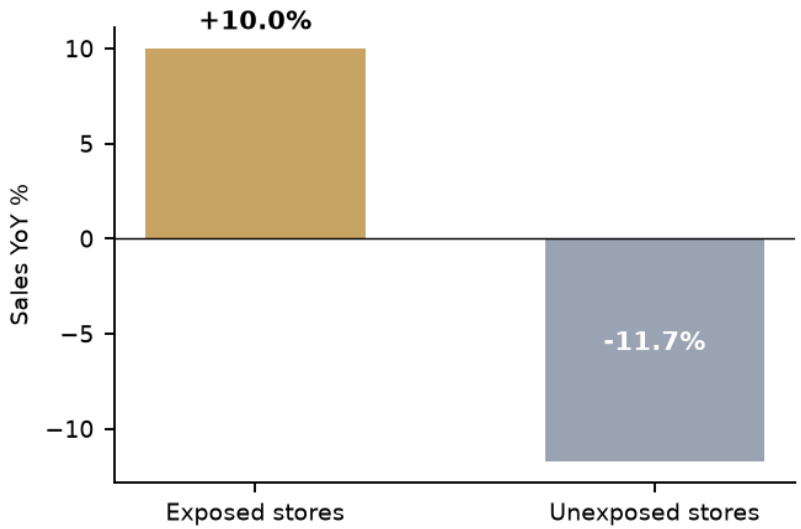

0.92%
CTR paid social

*Engagement rate = (likes + comments + shares + saves) / reach. Includes organic posts from brand ambassadors.

Note: the Paris Fashion Week celebrity moment (Oct 1) generated significant organic conversation; we include it in earned totals.

Store impact

Weeks 1-4 of flight (Sep 15 - Oct 13), sales year-over-year, local currency

Store	Market	Sales YoY
NYC01	Exposed	+30.8%
NYC02	Exposed	-8.5%
BHS01	Exposed	-1.4%
LON01	Exposed	+22.8%
LON02	Exposed	-5.2%
ASP01	Unexposed	-28.5%
TOR01	Unexposed	-8.8%

Attributed uplift: +21.7 pts -> +22%

Methodology: attributed uplift = YoY sales growth of exposed stores minus YoY sales growth of unexposed North American stores (Aspen, Toronto) over the measurement window. Miami Design District excluded from the exposed group due to store operational disruption in September. Store data provided by client (BI extract 14/10). Footfall uplift computed on the same basis using door counters.

What's next

Extend the flight through December with a holiday creative rotation (+$2.1M).

Add Toronto and Miami to the OOH plan - unexposed stores are clearly lagging.

Retarget site visitors with IRIDIA and AUREA dynamic product ads.

Build a store-level incrementality test with geo-holdouts for Q1 (we can design it).
